JOB DESCRIPTION

MCG has an immediate need for a Senior Solaris 10 System Administrator with Blade Server experience. Our client is prepared to interview and hire a Senior System Administrator with Team Lead experience and who has transitioned older Solaris versions into version 10. The right candidate will have experience moving from stand alone to virtual environments, Blade Server experience, Zones and Containers, understanding of Business Continuity and Security Management.

MCG is looking for talented individuals looking to join a team of dedicated professionals and work in a collaborative and challenging atmosphere. If this is you our client offers a competitive compensation program, including **no-cost** group medical, dental, disability, and life insurance coverage as well as a stock purchase plan, tuition reimbursement, and matching 401(k) contributions.

Job Requirements

- 5- 8 years of Solaris 8,9,10 systems administration experience
- Experience with Build-out and support of Physical Servers and Containers under Solaris 10
- Experience moving from stand alone to virtual environments
- Blade-server environment experience
- Understanding of Business Continuity Planning
- Knowledge Security management

Candidate will be able to pass a drug, background, and credit check.
