

Midwest Consulting Group

Midwest Consulting Group was founded in 1994 with the idea of helping Companies and Employees grow. Let us help you in your search for the right job.

Senior C# Developer

Our client is looking for a Senior Developer capable of working with multiple priorities and quality in mind. The Engineer will follow structured development practices and be knowledgeable with the Agile software development methodology.

The Senior Software Engineer participates with technical design, develops code and mentors junior engineers to enhance our application framework across the presentation layer, business logic layer, and data access layer. Develop automated unit tests to verify code is working properly, perform code reviews and deliver scalable systems.

This is a direct hire opportunity.

Required Skills

- Experience building Enterprise.NET Web applications using C# / ASP.NET
- ASP.NET AJAX, WF (Windows Workflow), Web services, ASP.NET
- Knowledge in Object Oriented Analysis and Design

Highly Desirable Skills

- Experience with Sharepoint 2010 development and Silverlight
